

Map – Europe in 1914

Using your *Student Workbook*, create a map of Europe before the First World War.

1) Which countries would you consider great powers in 1914?

2) Which great powers were members of the Triple Alliance?

3) Which great powers were members of the Triple Entente?

- 4) Thinking about what you have already learned about imperialism, explain the political boundaries of Europe in 1914.

Just so you know, these boundaries are going to change after the First World War.

Take a look at Page 52. This map reflects the rising power of national self-determination, not imperialism.
